

AUSTRALIA'S GALAPAGOS

A microcosm of Australian terrestrial and marine wildlife, Kangaroo Island is the prime destination for the wildlife enthusiast and is filled with as much adventure as you can handle!

LEVEL:

Epic suggests: **5 DAYS**

Best months: **YEAR ROUND**

AUSTRALIA'S GALAPAGOS

Four-wheel-drive on quad bikes to remote beaches, hike over rocky headlands commanding panoramic views over the great Southern Ocean, mountain bike through bush tracks and sand-board down giant dunes.

DAY 1: ADELAIDE, SOUTH AUSTRALIA / KANGAROO ISLAND

After meeting in Adelaide, you fly to Vivonne Bay on Kangaroo Island, and transfer to your accommodation – a super luxe eco-lodge with a splendid outlook to the Southern Ocean.

Red dirt roads, sheep and cattle farms, spectacular coastline, white sandy beaches, Eucalyptus trees stretching off to the horizon, amazing wildlife encounters and the freshest local produce - Kangaroo Island has it all.

DAYS 2 – 4: KANGAROO ISLAND

Aptly described as “Australia’s Galapagos”, you won’t need to go too far to meet the real islanders; native kangaroo and wallaby species, echidna and koala, to name but a few. At night you can watch the penguins parade ashore before finding a suitable vantage point to observe the countless stars in the crystal clear southern sky.

DAY 5: KANGAROO ISLAND / ADELAIDE

Transfer to Vivonne Bay for your private air charter back to Australia’s mainland and connect with your onward flight.

Epic suggests extending your stay in the region with a few days in the neighbouring wine regions of South Australia; The Barossa Valley, McLaren Vale and Adelaide Hills.

- This programme is **fully customisable**.
- Age restrictions may apply for select accommodation and activities.
